SECTION A - A

NOTES

1. Vertical alignments should be no steeper than 1 in 12 (8%)
2. Where topography results in vertical alignments to be greater than 1 in 12 and up to a maximum of 1 in 8, grit bins will be required in strategic locations on a hardstanding behind the footway so as not to obstruct the footway
3. Hardstanding to be between level and a 1 in 32 gradient away from the footway.

GRIT / SALT BIN HARDSTANDING
