

1. All dimensions are in millimetres unless otherwise stated.

Dwg. No. C42820 / 2013 / 01 C

Job Title

KEY

- Unsurveyed areas
- Overland drainage system.

HAZARD ZONATION

- HIGH HAZARD:**
Area with active slope processes with relatively large displacements. High probability of continued movement within the lifetime of the property at risk.
- MEDIUM HAZARD:**
Area with recent slope movement but largely inactive at present. Moderate probability of failure in response to abnormally large rainfall events within the lifetime of the property at risk.
- LOW HAZARD:**
Area with no sign of recent activity and low probability of failure within the lifetime of the property at risk.

RISK ZONATION

- CATEGORY 1:**
Property or road within a high/medium hazard area or within the likely trajectory of a landslide from such an area. Total loss of property likely and injuries are possible.
- CATEGORY 2:**
As above but for reasons of location and topography, property is unlikely to suffer total loss and injuries are less likely.
- CATEGORY 3:**
Property or road within or adjacent to a low hazard area and which is largely outside the direct effects of failures higher on the hillside in the present conditions.
- Unoccupied Property
