<h1 style="text-align: center;">SAFETY, HEALTH AND ENVIRONMENTAL INFORMATION</h1>																																																	
<p>In addition to the hazards/risks normally associated with the types of work detailed on this drawing, note the following significant residual risks (Reference shall also be made to the design hazard log).</p>																																																	
<h2>Construction</h2> <ul style="list-style-type: none"> <li>• Requirement for services diversions in advance of works to install new culvert</li> <li>• Potential for encountering unplotted services or private underground services access to be maintained to residential and commercial properties</li> <li>• Presence of asbestos containing materials at Carreg Hir</li> <li>• Presence of contaminated soils in areas of former industrial use (land at Penrhifin)</li> <li>• Maintaining of existing surface water flows</li> <li>• Sudden increase in flows</li> </ul>																																																	
<h2>Maintenance / Cleaning</h2> <ul style="list-style-type: none"> <li>• Trash screen will require regular inspection and clearance</li> <li>• Trash screen and outfall to be inspected after storm events</li> <li>• Attenuation tanks to be cleaned by high flow jetting</li> <li>• Silt/rock traps to be emptied to prevent culvert blockage</li> </ul>																																																	
<h2>Use</h2> <ul style="list-style-type: none"> <li>• Trash screen will require regular inspection and clearance</li> <li>• Trash screen and outfall to be inspected after storm events</li> <li>• Attenuation tanks to be cleaned by high flow jetting</li> <li>• Silt/rock traps to be emptied to prevent culvert blockage</li> </ul>																																																	
<h2>Decommissioning / Demolition</h2> <ul style="list-style-type: none"> <li>• Requirement for services diversions in advance of works to install new culvert</li> <li>• Potential for encountering unplotted services or private underground services access to be maintained to residential and commercial properties</li> <li>• Presence of asbestos containing materials at Carreg Hir</li> <li>• Presence of contaminated soils in areas of former industrial use (land at Penrhifin)</li> <li>• Maintaining of existing surface water flows</li> <li>• Sudden increase in flows</li> </ul>
